GENDER EQUALITY SENSITIZATION PROGRAM

DATE: 04/07/2014

Speaker: Dr Mathangi

GENDER EQUALITY

In our present world gender inequality is present in home and work places everywhere. It remains a barrier in human development. Speech on gender equality highlighted few valuable points on how women are equally responsible for all the activities carried out by men and vice a versa. Now days as women are equally educated and qualified as men, providing them a path can bring out changes in society. As opportunities are given equal to men, the men should also stand in support with them by sharing their routine responsibilities. They should lend help and support to all women in taking care of the family and maintaining the normal well being of family. Similarly women should be given the power to take financial decisions along with men.
