

STUDENTS GRIEVANCE AND COUNSELLING CELL

This committee supports the students to give their views and complaints on any difficulty they face during the course period which set back their academic/clinical skills or confidence on the subject or any negligence to the curiosity of the students towards the subject. All the complaints will be kept confidentially, but will be analyzed and attended in the right way.

Objectives of the committee:

The cell plays an integral part of the Chettinad Dental College and Research Institute, supports the students and helps them to make the best of their learning environment. It is common knowledge that when students have problems that are unresolved, it reflects in their attendance, academic performance and ultimately with their personality development. The cell therefore attempts to provide a nurturing environment wherein each student is empowered to face the life challenges and move ahead to achieve their academic goals. Kindly give your consent to be a part of the above committee. You are to be holding the post of a member/convener.
