

DEPARTMENT OF PUBLIC HEALTH DENTISTRY

WORLD ORAL HEALTH DAY- 20/03/2014 REPORT

**World Oral
Health Day**
20th March

World Oral Health Day is celebrated globally every year on 20 March and is organized by FDI World Dental Federation. World Oral Health Day was launched in 2013 to raise awareness of the importance of good oral health and its significance in safeguarding general health and well-being. This is done through an international awareness campaign created and launched by FDI World Dental Federation, adapted and promoted locally by national dental associations in over 140 countries worldwide.

‘Live**MOUTH SMART**’ empowers people to take control of their oral health – throughout life – so they can enjoy a healthy, functional mouth from childhood into old age. Venturing into this arena, the Department of Public Health Dentistry also initiated its novice effort to commemorate this momentous occasion.

Nursing Students Attended the Program

Importance of Oral Health Day lecture given by Dr Prabhu

In this avant garde attempt to instill the sapience of oral health and its influence on overall health , the intende message was sublimely instilled into the minds of the assembled congregation and they were duly inspired and invigorated to provide meticulous care for their oral cavity.
