

## National Tooth Brushing Day – November 7<sup>th</sup> 2014

The National tooth brushing day was celebrated by the department of Public Health Dentistry of Chettinad Dental College and Research institute, on The November 7<sup>th</sup> 2014 to emphasize the importance of proper tooth brushing habit on the overall wellness of the oral health.

Dr.N.Nagappan interacting with the students of the school. The students were initially questioned about their usual habits of tooth brushing and were asked to demonstrate in front of the audience as how they brush their own teeth. This was followed by demonstration of proper demonstration of tooth brushing technique by the instructor.

The class teachers of the school students were asked to involve in helping the students understand the message conveyed by the instructor. The teachers initially learnt the tooth brushing procedure and were later asked to reinforce the proper brushing technique to the students later.

The instructor is explaining the importance of proper tooth brushing to the students.

Dr.Nagappan giving a demonstration of the proper tooth brushing technique to the students using a dummy model of the human dentition with a tooth brush.

Dr.Nagappan interacting with the students after the demonstration section. The students were asked questions on the technique taught to them.
